

SENATOR WARNER:      Madam President, members of the Legislature, Senator Hall, I am more comfortable about laying over now than I was earlier, but seriously I appreciate the position that Senator Hall is coming across when I indicated this concept could be extended. That was not a casual remark on my part, but I honestly don't know the ramifications. I am very comfortable with it and I think it's appropriate to make the restriction in the area that is dealt with in LB 28. It conceivably could be broadened and I'm certainly willing to look at that in another session when there is time to look at it, but I'd hope that this limited application could be advanced. I think with gambling there is sufficient reason and compelling interest to look at it somewhat differently than other aspects and many things I have read certainly would indicate that and that does not suggest that something improper is necessarily being done, but the perception and the potential is probably greater than in other areas, at least based on what I have read. I'd urge the body to advance the bill.

PRESIDENT ROBAK:      Thank you, Senator Warner. Is there any further discussion on the...there has been a request for a board vote. The question before the body is the advancement of LB 28. All those in favor vote aye, all those opposed vote nay. Have you all voted? Please record.
